CHAP CHAP(Figma Project)

Designed [202410060]

“Simple, Fast & Tasty Experience.”

ABOUT THE APP

“The main goals of my design were:

- To simplify the food ordering experience
- To create an attractive and consistent UI
- To improve navigation and user satisfaction
- And to include useful features like favorites, order tracking, and easy checkout.”

Problem Statement

- Long Wait Times
- **Confusing Order Process**
- Distractions and Line Cutting
- Crowding and Lack of Space

Objectives

- > “The main goals of my design were:
- Time-Saving Convenience
- Easy-to-Use Interface
- Multiple Payment Options
- Scheduling & Pre-Ordering

Conclusion

- My goal was to create a visually appealing and user-friendly food ordering app, and I believe this design achieves that.
- Thank you for your attention!”
